

The Prout School

AUTHORIZATION FOR THE DISPENSING OF NON-PRESCRIPTION MEDICATION (MANUFACTURER-LABELED CONTAINERS ONLY)

Name _____ Grade _____ DOB _____

The dispensing of non-aspirin pain reliever such as Tylenol or Advil **will not be allowed without prior permission** from parents/guardians. If your child needs a non-aspirin pain reliever and no permission slip on file, it cannot be given. Previous experience has revealed that few parents/guardians are home to grant permission at the time a pain reliever is requested.

Our medication policy requires that if your child needs medication you are required to supply that medication.

Allergies _____

Other Conditions _____

I request that my child be assisted in taking the medicine(s) described below at school by the school nurse.
